**DETAILED ACTION**

***Election/Restrictions***

This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

Species A: Figure 1;

Species B: Figure 1a;

Species C: Figure 2;

Species D: Figure 3;

Species E: Figure 4;

Species F: Figure 5;

Species G: Figure 6;

Species H: Figure 7;

Species I: Figure 8;

Species J: Figure 9;

Species K: Figure 10 and 11;

Species L: Figure 12 and 13;

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply

Art Unit: 3752

must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

The claims are deemed to correspond to the species listed above in the following manner:

Species A: Claims 1, 2, 4, 5, 6, 7, 8, 9, 11, 12, 13, 18-35;

Species B: Claims 1, 2, 4, 5, 6, 7, 8, 9, 11, 12, 13, 18-35;

Species C: Claims 1, 3, 4, 5, 13, 18-26, 32, 34;

Species D: Claims 1, 3, 4, 5, 18-26, 32;

Species E: Claims 1, 2, 3, 4, 9, 11, 18-26, 32;

Species F: Claims 1, 2, 3, 4, 18-26, 32, 34;

Species G: Claims 1, 13, 18-26, 32, 34;

Species H: Claims 1, 3, 4, 5, 10, 14, 16, 18-26, 32;

Species I: Claims 1, 4, 5, 10, 14, 16, 17-26, 32;

Species J: Claims 1, 4, 5, 10, 14, 15, 18-26, 32;

Species K: Claims 1, 4, 18-26, 32;

Species L: Claims 1, 4, 18-26, 32;

Art Unit: 3752

The following claim(s) are generic: 1, 4, 18-26 and 32.

The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: For various claimed species, the inventive concept differ in scope where pits, constrictions, flared and cylindrical orientation of the chambers are used in some species and multiple inlets for others. Lack of relation also exists in the number of sections present for each species and the widths of the inlets and outlets vary in between. Restriction is considered proper for at least these aforementioned reasons.

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
